

COURSE OUTLINE

ICT30115 Certificate III in Information, Digital Media & Technology

1. Aims

To develop knowledge and skills in the use of Information and Communications Technology (ICT)

This course gets students inside the ICT - no longer are they users. This course provides the hands-on technical foundation for a range of IT Diploma courses.

This course also suits ICT graduates who want to improve their practical skills in the PC and server area, and those with practical skills who want to gain a formal Australian qualification in IT.

2. Course Outcomes

This course in ICT provides students with the necessary skills for the following purposes:

- To undertake work as an ICT technician
- To undertake work in a range of ICT support roles (e.g. user, operations, PC, technical and/or client)
- To facilitate access to employment, including setting up a small business
- As a precursor to higher level studies.

3. Overview

This qualification is fully competency-based. The course involves highly practical, hands-on approaches and delivery. It utilises a wide range of teaching-learning methods including extensive workshop experience to consolidate skills learnt. This is an active learning course for small groups.

4. Duration

The Certificate III course is studied over a semester which involves two 10 week periods of formal tuition as well as a mid-semester break.

There are 2 intakes for the Certificate III course: in February and July.

5. Costs 2018

Application Fee

There is a non-refundable enrolment application fee:

Australian students	\$150
International students	\$300

COURSE OUTLINE

ICT30115 Certificate III in Information, Digital Media & Technology

Academic Fees

Fees for this course are:

Australian Students	\$4,500
International students	\$5,000

Note: The College reserves the right to alter fees prior to the start of each academic year.

6. Entry Requirements

While there are no formal prerequisites, general requirements for entry are:

- Completion of year 10 schooling
- A completed student application form & payment of the application fee
- Minimum entry age is 15 years (18 years for international students).

Students must subscribe to the standards of Unity College Australia.

This means that students will:

- respect college authority and other students
- respect college and student property
- comply with cultural and social standards including:
 - modesty of dress
 - honesty and integrity in dealing with others
 - sensitivity to students from cultures different to one's own
 - no consumption of alcohol or non-medicinal drugs, nor being under the influence of the same, while on campus. The college is a non-smoking environment.

7. Training Process

The Certificate III course entails a minimum of 20 hours of face to face classroom tuition and hands-on experience. Students will be assessed progressively in all these areas.

Unity College Australia uses a wide variety of training methods.

Unity College Australia uses adult-learning principles. Therefore participants in this program are expected to take charge of their own learning process.

It is required that each student attends all classes and activities, and progressively completes all work required for assessment by set deadlines.

ICT30115 Certificate III in Information, Digital Media & Technology

8. Course Structure

The Certificate III qualification is taught over a single semester (6 month) period.

The course requires the completion of 17 units of competency, 6 core units and 11 elective units. Elective units actually implemented may vary from semester to semester. Below is a sample of some available.

Unit of Competency	
Code	Name
<i>Core Units</i>	
BSBWHS304	Participate effectively in WHS communication and consultation processes
BSBSUS301	Implement and monitor environmentally sustainable work practice
ICTICT202	Work and communicate effectively in an ICT environment
ICTICT301	Create user documentation
ICTICT302	Install and optimise operating system software
ICTSAS301	Run standard diagnostic tests
<i>Electives (11 units will be studied)</i>	
ICTICT303	Connect internal hardware components
ICTICT306	Migrate to new technology
ICTNWK301	Provide network systems administration
ICTNWK302	Determine and action network problems
ICTNWK304	Administer network peripherals
ICTNWK305	Install and manage network protocols
ICTSAS303	Care for computer hardware
ICTSAS304	Provide basic system administration
ICTSAS305	Provide ICT advice to clients
ICTSAS306	Maintain equipment and software
ICTSAS307	Install, configure and secure a small office or home office network

9. Nationally Recognised Training

Australia has a system of national standardisation of training for many industry areas including Information Technology.

COURSE OUTLINE

ICT30115 Certificate III in Information, Digital Media & Technology

This system is implemented through the use of training packages (groups of courses) and individual units of competency.

All units studied in this course are nationally recognised competencies from the Information & Communications Technology Training Package.

10. Assessment overview

A wide range of assessment tools are used including:

- attendance and class participation
- exercises, presentations and/or tests
- computerised learning tools and practical research
- written assignments
- hands-on workshop experience, observation and tests

Competency-based assessment criteria apply to grading.

Final assessment for each unit studied will be shown as:

- C Competent
- NYC Not Yet Competent

Students will be recommended for graduation once the following requirements are met:

- All academic requirements completed and assessed
- Payment of all outstanding fees owing to Unity College Australia
- Return of any loaned college resources
- Maintained a satisfactory level of conduct during the course and on campus
- Maintained a satisfactory level of attendance during the course

A Certificate III is awarded if all 17 units are assessed as Competent.

Academic Transcripts will show results for units assessed as Competent.

11. Pathways

Unity College Australia offers a Diploma level course in Information Technology.

Students who complete the Certificate III level course will be able to move into the Diploma course.

Students may also choose to continue on to further tertiary studies in Information Technology at Advanced Diploma, Bachelor or higher levels.
