- respect college authority and other students
- respect college and student property

- comply with common cultural and social standards including:
 - modesty of dress
 - honesty and integrity in dealing with others
 - sensitivity to students from cultures different to one's own
 - no consumption of nicotine alcohol or non-medicinal drugs, nor being under the influence of the same, while on campus or participating in college-related activities. The college is a non-smoking environment.

7. Training Process

Face-to-face and/or on-line training sessions will be held over the duration of the full-time course. Implementation will include projects in the work experience component which will allow participants to use their training in groups and individually.

Additionally the Work Experience component will be undertaken in parallel to this.

The course is structured to ensure that participants develop skills and knowledge which may be transferred to real life work situations. Training is often undertaken in group situations and can also be facilitated on a one-on-one basis with individual participants.

Assessment work covered during the training sessions is then completed by participants in their own time, before being submitted for assessment.

A strong feature of these courses is individual mentoring and coaching by industry experienced functional managers and trainers.

Students are provided with notes for each unit of study, which include the materials used in the training sessions, assessment materials (other than tests) and any other reference materials.

Students are expected have a personal computer in order to undertake relevant training and assessment tasks.

Unity College Australia uses a wide variety of training methods appropriate to the course context.

A variety of learning tools will be used for training in the group setting and will cover both theoretical and practical aspects of the course. These may include role plays/simulations, handouts, practical experiences/projects or research for students to undertake; and the use of laptop/projector, whiteboard, and/or other available media.

Unity College Australia adopts adult-learning principles, and all students are treated as adult learners. Participants in this program are therefore expected to take charge of their own learning process. It is expected that each selected participant will be committed to meeting the requirements of the relevant course and will attend relevant classes and activities and complete all work required for assessment.

8. Course Competencies

Australia has a system of national standardisation of training for many industry areas. This system is implemented through the use of training packages (groups of courses) and individual units of competency. Students are able to gain automatic recognition across

all accredited government and private training organisations for relevant studies undertaken at any one of them.

All competencies studied in this course are nationally recognised competencies from the National Training Packages. Graduates will be issued with a statement of competencies achieved as part of their studies. Individual nationally recognised competencies related to this course are listed below.
